Reset Password

1. Access the link to the TASE system sent in the email. Upon entering, a login screen will appear, click on Forgot/Set Password.

2. Enter the user's email address, a password is required, then check **Verify you are human** and click **Continue**.

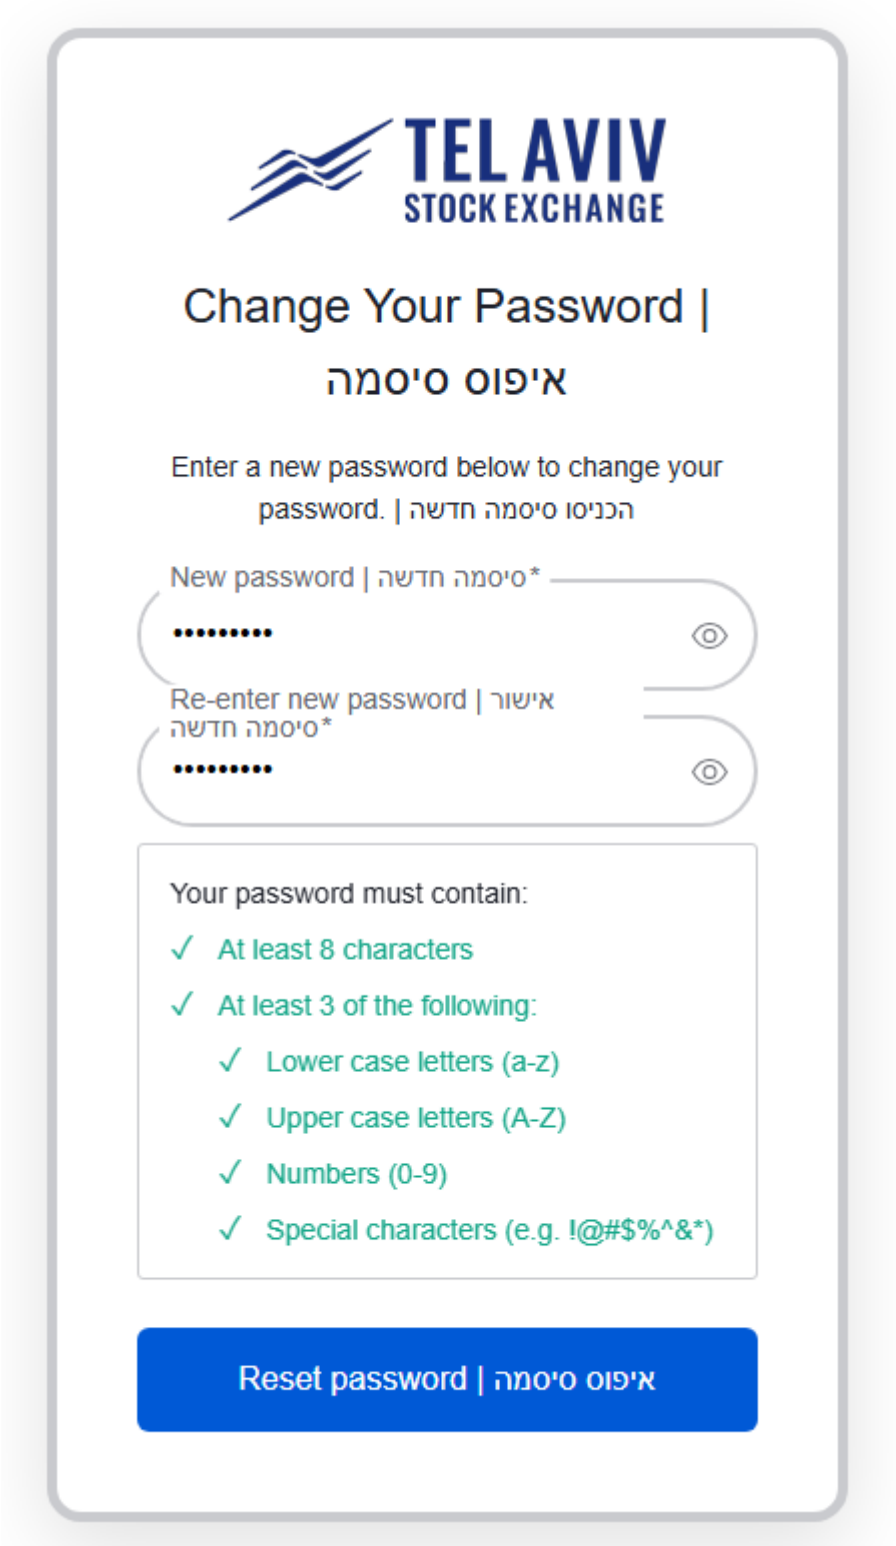

3. After a few moments, you will receive an email from tasesupport@tase.co.il with the title **Reset password**.

If you do not receive the email after a few minutes, you should:

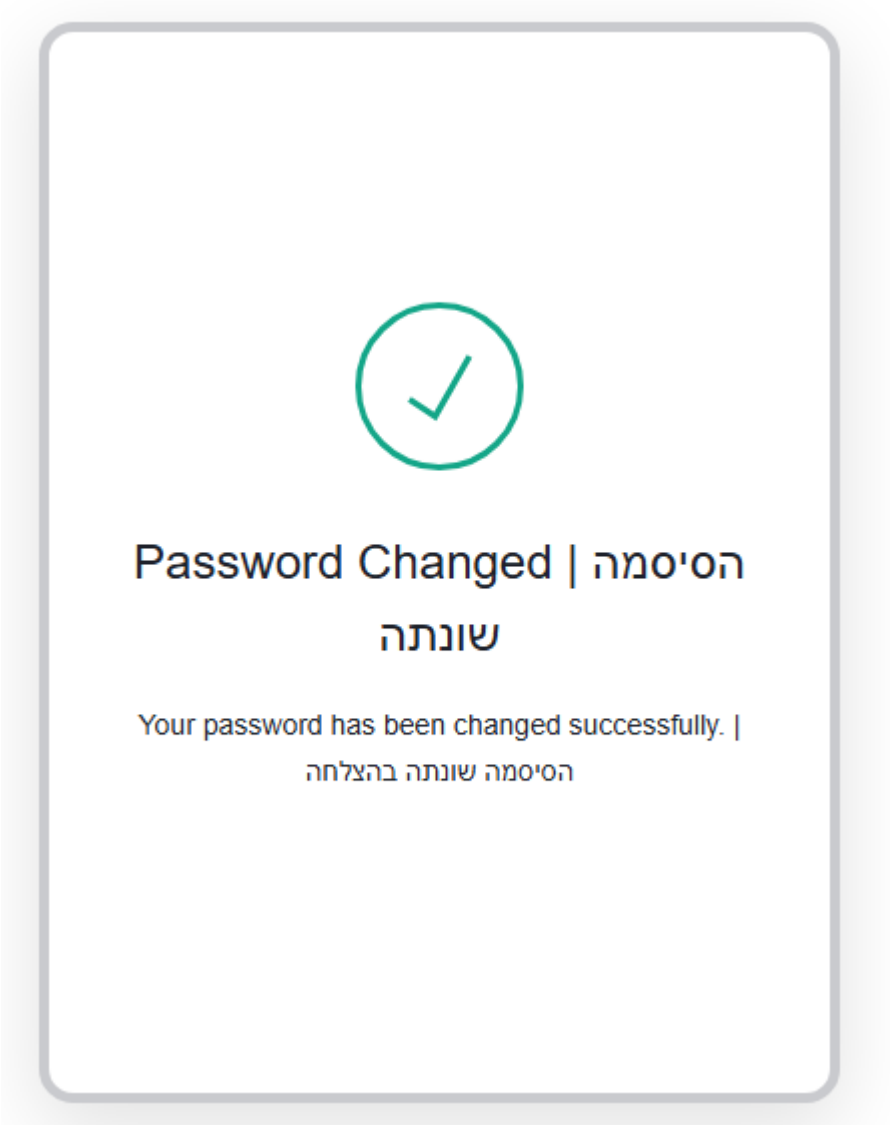

Check if the email has reached spam.

Verify with the IT staff that the organization allows receiving emails from tase.co.il and tasemail.co.il

4. Clicking on the link in the email will open a screen where you must set a new password (the password must include uppercase English letters, lowercase English letters, a number, and a special character), then click **Reset Password**.

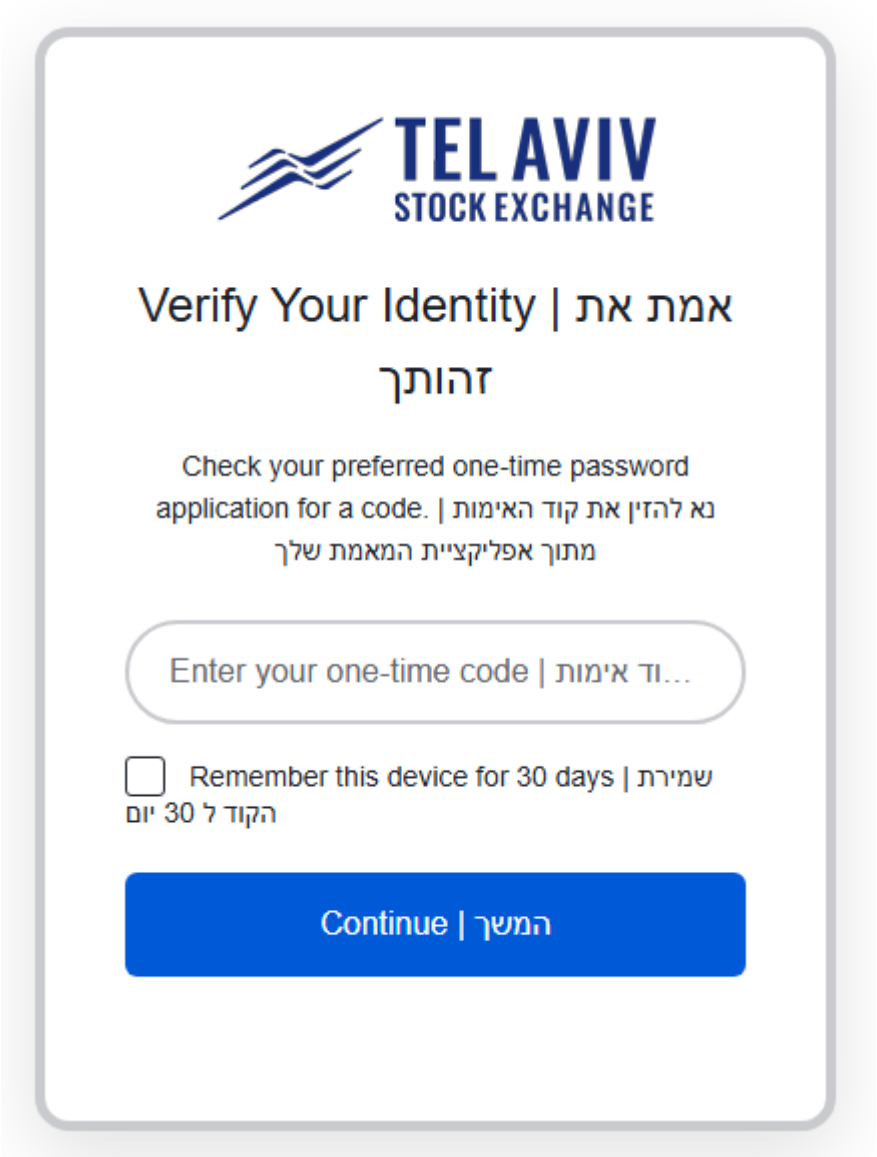

5. After receiving "Your password has been changed successfully" message:

6. You can access the TASE system via the link sent in the email.

7. Type the 6-digit code from the authentication app (Google/Microsoft Authenticator) in the "Enter your one-time code" field and click **Continue**.

Login completed 😊
